Everbearing Strawberries

Including Gemzata, Mastodon, Streamliner, Green Mountain, Gem, Evermore or 1166, Brunes Marvel, Superfection, and an unnamed variety which makes a moderate amount of runners and bushes just a little. It may have a big future if it gets a good name because it has good flavor and it picks clean without a stem, with a few exceptions. The Wayzata or Rockhill No. 26 is the ideal Strawberry of all the above everbearing varieties when it is given adequate irrigation. Generally speaking everbearing varieties seldom bear well unless they get extra water.

The Wayzata everbearing is a large berry, fine flavor, and easy to pick because it is bush type. You will have no trouble keeping runners cut because there are few or no runners.

Price \$8.00 per hundred. **Wayzata Divisions** \$5.00 per hundred

If you water divisions often, they will grow. If you neglect to water them during a dry spell, the loss will be much greater than on runner plants. After a few weeks the difference disappears.

Prices on all other everbearing varieties —

25 plants for \$1.00 or \$2.00 per hundred if supply permits.

JUNE BEARING STRAWBERRIES

Senator Dunlap	\$1.00 per 100; \$5.00 per 1000
Catskill, Red Star, Fairfax, Robinson, Premier	\$2.00 per 100

Locate patch in full sun where ground has slight slope so the plants can be watered between the rows.

Superphosphate is nearly always beneficial as a fertilizer as for most fruits. Tests indicate my ground is also helped with borax, copper, zinc, urea, and nitrogen.

New Mulchless Method of growing Everbearing Strawberries has proven successful for nine years.

Many plants die in winter from lack of moisture especially everbearing strawberries. By watering early in the spring and often until late fall this cause is avoided. Mulch often contains seed of plants that are a nuisance and also often provides a hatching place for white grub worms, the worst enemy of strawberries that I have encountered.

If watering in late fall is impossible, mulching may be necessary; but mice and moles often burrow under the mulch.

Roses and many other plants die from lack of water in winter.

The correct amount of water varies with other conditions, but experience is a great teacher.

But the fact remains that most plants will drown if given too much water and most of them will die if they cannot get moisture.

FRUIT TREES

Apricot

Apricot Seedlings50 to .75 Apricot—Thomsen's Early \$1.50

Other apricots are semi-hardy and are sold as such here.

Apple

Anoka	.50 to \$ 1.00	Duchess Red	.50 to \$ 1.00
Early Harvest	.50 to 1.00	Yellow Transparent	.50 to 1.00
Haralson	.50 to 1.00	Whitney Crab	.50 to 1.00
Delicious Red	.50 to 1.00	Wealthy	.50 to 1.00
Double Red Jonathan	.50 to 1.00	Winesap	.50 to 1.00

5-N-1 Apple

This means five different varieties grafted on one tree. Price, each \$2.50

Cherry Trees (Sour or Sweet Yellow Glass)

Sweet Yellow Glass	English Morello
Montmorency and Early Richmond	
Three sizes	\$1.25 — \$1.50 — \$1.75

Peach Trees

Peach Seedlings	.50	Polly Peach	\$1.25
-----------------	-----	-------------	--------

Pear

Flemish Beauty	Douglas
Clapp's Favorite	Bartlett
Each	\$1.25 — \$1.50

Plums

Apricot Plum	Superior				
Compass	Toka				
Wauneta	Omaha				
Sapa	Opata				
Large	\$1.75	Medium	\$1.50	Small	\$1.25

Grapes

Concord	25c each; 5 for \$1.00
Niagara	25c each

Berries

Berries will sometimes grow without much care, but will grow better if conditions are made favorable.

Moisture and wind break are very essential.

Moist, fertile soil attracts earth worms which seem to benefit many plants.

I believe our soil is very good but it is often so dry that plants cannot get minerals in soluble forms. Heat, frost, and moisture will often get minerals in soluble form if they are given lots of time and perhaps lime.

Sometimes the soil is slightly deficient in carbon, phosphorus, potash, calcium, nitrogen, and urea.

The soil may need traces of other elements as iodine, cobalt, manganese, sodium, carbon, boron, magnesium, potassium, sulphur, zinc, and perhaps chlorine or iron, in soluble forms.

Leaf mold and peat moss contain food that benefit some plants but most of the above named are useless, or even harmful without adequate moisture.

Pruning may be done in dry weather after the fruit has been picked but many prefer to prune when plants are dormant just before budding in the spring.

If the ground gets hard, common manure will help things grow if sufficient water is used and make better soil. Peat moss and wood ashes, too, are useful.

Berry Plants

Raspberries—

St. Regis Everbearing

Latham Red

Cumberland Black

12 Plants for

Vines

Trumpet Vine

Engelmann's Creeper

Climbing Rambler

Silver Lace Vine

Bittersweet

Bulbs

Regal Lilies	\$.25	Dahlias	2 for	.25
Narcissus	12 for 1.00	Cannas		.10
Blue Squills	6 for 1.00	Glads—almost sold out	20 for	1.00
Tulips—Double Red	12 for 1.00	Tiger Lily		.25
Mixed	24 for 1.00	Star of Bethlehem, doz.		.25
Russian Lilies, each	.25	Grape Hyacinth, doz.		.25

Shrubs

Coral Berries	\$.10	Tamarix	.25 to	1.00
Carragana	.50	Persimmon		2.00
Hydrangea	.75	Elderberry		.25
Golden Bell	.50	Mock Orange		.50
Lilacs—4 kinds	.50	Rose of Atica		.25
Privet	.07 to .25	Barberry	.25 to	1.00
Pussy Willow	.50	Cotoneaster		.40
Orange Quince	.50	Dogwood	.35 to	1.00
Buddleia (6 varieties)	.50	Flowering Almond		.75
Bittersweet	.50	Pride of Dorchester		.40
Spirea (4 varieties)	2 for .25	Nine Bark		.50

Hedge Plants

Privet, 2 yr. and 3 yr.	\$7.00 per 100
Cotoneaster	15.00 per 100
Gnilla Maple	10.00 per 100
Barberry	10c — 25c — \$1.00
Pussy Willow	50c and down

Poplar, Lombardy—5 ft. to 6 ft. and down	50
Poplar, Bolleana	15c per ft.
Large Size	20c per ft.
Lilac, per 100	5.00

Roses

Roses are the center of attraction in many gardens. There are over 4,000 varieties. Many are not hardy but a few varieties are very hardy. We have nearly all colors—white, pink, red, yellow. We will have over 75 varieties planted and blooming this summer. A few will die next winter and more the following winter.

We select the most hardy named roses from our trial garden and buy more for resale and will have about 25 varieties in stock for resale, including

Talisman
Pink Radiance
Red Radiance

Lady Hillington
Editor McFarland

and others—a few home grown.

Regular Varieties _____ 1.00
Common Varieties _____ .50

Plant Graft 3 inches deep or over for frost protection.

Evergreens

In winter the Cedar tree forms an ideal windbreak. The Spruce looks beautiful surrounded by snow. But Pines and Fir are greater in size and very useful.

Arbor Vitae	\$3.00	Spruce, Black
Red Cedar	50c per foot	Spruce, Colorado Blue 50c to \$25.00
Pine, Yellow	1.00 to 2.00	Juniper, Savin 3.00
Pine, White	1.00 to 2.00	Juniper, Pfitzer's 1.00 to 6.00
Pine, Mugho	2.50	Several Other Varieties

Our garden crops need windbreak protection as well as good soil and water. Some plants need shade. A home is more comfortable both in summer and in winter if the windbreak and shade are adequate.

A large list of shade trees offers selections suitable for every home. Some are drouth resistant as the cottonless cottonwood and box elder and beautiful in their place. You will have to consider the male box elder one of our best shade trees. The female box elder attracts box elder bugs because it has seeds.

Seedling Red Cedars	100 for \$3.00
Seedlings of Other Windbreak Trees	100 for \$1.50 to \$6.00
Seedling Chinese Elms, 4 ft. to 5 ft.	25 for \$2.50

Big Bargain

Red Cedar Trees, 6 ft., per foot.	\$.50
-----------------------------------	--------

These trees are nursery grown, three times transplanted and sheared, inverted cone.

2-foot Cedars at 50c per foot or \$1.00

A few windbreaks at special prices.

Shade Trees

Some of these trees are 20 feet high and we have a limited supply of seedlings. The prices vary according to size and shape. They are all priced very reasonable.

Cottonwood, 18 in.	100 for \$ 1.00	Linden
Chinese Elm, 12 to 18 in.	100 for 1.50	Maple, Norway 5.00
Birch, American White		Maple, Common .50 to 2.50
Caragana		Maple, Red Schwedler's 3.50
Moline Elm	\$2.00	Mountain Ash 1.50
American Elm	1.00	Poplar—
Hackberry		Lombardy .25 to .50
Redbud	1.00	Golden
Pin Oak	3.00	Silver
Burr Oak	2.00	Bolleana .50 to 2.00
Sugar Maple	2.00	Walnut, Black 1.00
Kentucky Coffee Tree	2.00	Weeping Willow, Yellow .50 to 1.00
Honey Locust		Weeping Willow, Nigra
Black Locust		

Perennials

Asters	\$.25	Dianthus—	
Aster Ann	.25	Knappi	.25
Alyssum		Hedgewigi	.25
Aquilegia (Columbine)—		Sweet Wiverfield	.25
Spurless	.25	Plumoris (Clove Pinks)	.20
Hybrids	.25	Digitalis	.25
Long Spurred	.25	Forget-me-not	.20
Longissima	.35	Gaillardia	.25
Mixed Colors	.25	Gypsophila—Double	.50
Bleeding Heart	.50	Ghost Plant	.25
Bouncing Betty	.10	Golden Glow	.25
Baby's Breath (2 varieties)	.25	Hibiscus	.25
Blue Flax	.25	Iris	10c to .50
Campanula	.25	Japanese Iris	.35
Canterbury Bells	.25	Lavender	.30
Chrysanthemums (100 varieties)	.25	Lily of the Valley	
Coreopsis	.25	Oriental Poppy	.25
Creeping Phlox	.25	Platycodon	.25
Cone Flower	.25	Pyrethrum	.25
Candytuft	.25	Peonies	.50 to 1.00
Coral Bell	.50	Ribbon Grass	.20
Chinese Lantern	.25	Salvia	.25
Carnation	.25	Statice	.25
Delphinium—		Sweet William—4 varieties	.15
Belladonna	.25	Stokesia	.25
Chinese	.25	Sweet Pea	.25
Chinese Blue Mirror	.25	Tritoma, Red Hot Poker Plant	.50
Dark Blue	.35	Veronica	
Light Blue	.35	Violets	
Giant White	.35	Violas	
Lavender	.35
